**MEMORANDUM**

**DATE:** January 9, 1998

**SUBJ:** 5-Year Review for Wells G&H

**FROM:** Mary Garren, Remedial Project Manager  
MA Superfund Section *Mary*

**TO:** Lynn Gilleland  
Technical Support & Site Assessment Section

The purpose of this memo is to inform you that I have begun a 5-Year Review for Operable Unit 1, the Source Area Properties, of the Wells G&H Superfund Site. As you are aware, OU1 is broken into five individual properties. On September 30, 1992, two of these properties, owned by W.R. Grace & Company and the UniFirst Corporation, put two related groundwater pump and treat systems online. These UV-Chemical Oxidation treatment systems were in operation for five years as of September 30, 1997.

On December 18, 1997, I received the necessary data from UniFirst Corporation to begin a 5-Year Review. I'd appreciate your assistance in entering this date in CERCLIS as the actual start date for the 5-Year Review. If you have any questions, you can reach me at x613.
